

Development Projects Weekly Report for 4/28/2010

This weekly report provides a listing of new and existing development projects under review by Community Development. In order to research or track a specific project, it is important to have the project name and case number which is assigned at the time of application submittal.

The applications and proposed plans, staff reports and final decision for projects listed below are available for public review at our offices or may be viewed on our Web site at www.clark.wa.gov/commdev/active-landuseN.html.

If you have questions about a particular type of permit and the review process, you may view information for each type of permit on our Web site at www.clark.wa.gov/commdev/applicationsN.html.

You may also request a copy of these materials at our offices located in the Public Services Center, first and third floors, 1300 Franklin Street, Vancouver, Washington.

Pre-application conferences

Community Development requires a pre-application conference before it will accept a formal application for projects requiring public notice and/or hearings. The conference provides an opportunity for the property owner or developer to explore their situation with county staff. Member of the public may attend however our schedule does not allow for public comment during this time.

Type I Administrative Decisions – routine staff review

Type I applications involve minor changes and do not require public notice or public hearings. These projects are handled “over the counter” as a matter of routine. Type I projects are not listed on this report. Decisions may be appealed to a land use hearings examiner and subsequently to the Board of Clark County Commissioners. Board decisions may be appealed to Superior Court. For more information contact our office at (360) 397-2375, ext. 4489.

Type II Administrative Decisions – includes public notice

Type II projects require public notice and county staff approval but do not require public hearings. Community Development determines whether a Type II proposal meets relevant code requirements. The proposal may result in approval, approval with conditions or denial. Decisions can be appealed to a land use hearings examiner and subsequently to the Board of Clark County Commissioners. Board decisions may be appealed to Superior Court.

Type III Proposals for Public Hearing

Type III applications require public notice and public hearings. After reviewing the proposal, Community development prepares a staff report with recommendations to the hearings examiner. The examiner will conduct a public hearing to determine if the proposal meets relevant
